

**MEPA Public Meetings
re: the North Airfield Development ENF
(Environmental Notification Form)**

The MEPA public meetings drew high attendance rates, and comments expressed were universally opposed to the proposed expansion.

- 2/6/23 afternoon: MEPA on-site visit
c. 60 people attended, including state and town elected representatives

- 2/6/23 evening: MEPA public meeting, via zoom
c. 140 people attended for 3 hours

Online vimeo of the 2/6 zoom meeting:

NOTE re: vimeo: After agreeing to share a recording of the 2/6 MEPA zoom public meeting, **the developers refused to release the recording to the public.** The MEPA contact could not persuade them to make good their commitment. Later, the above vimeo link appeared in Secretary Tepper's 2/14/23 DEIR Scope.
